Why We Soak

An essay on the art of doing nothing

Long before wellness became an industry, before spa culture was commodified into cucumber water and ambient playlists, there was simply this: a body of warm water, rising from the earth, and a human being wise enough to get in.

> "There is something ancient and irreducible about lowering yourself into naturally heated water. It asks nothing of you except presence."

Hot springs have drawn people for millennia. The Romans built empires around them. The Japanese elevated bathing to spiritual practice with their onsen tradition. Indigenous peoples across the Americas considered thermal waters sacred healing grounds — neutral territory where even warring tribes laid down weapons.

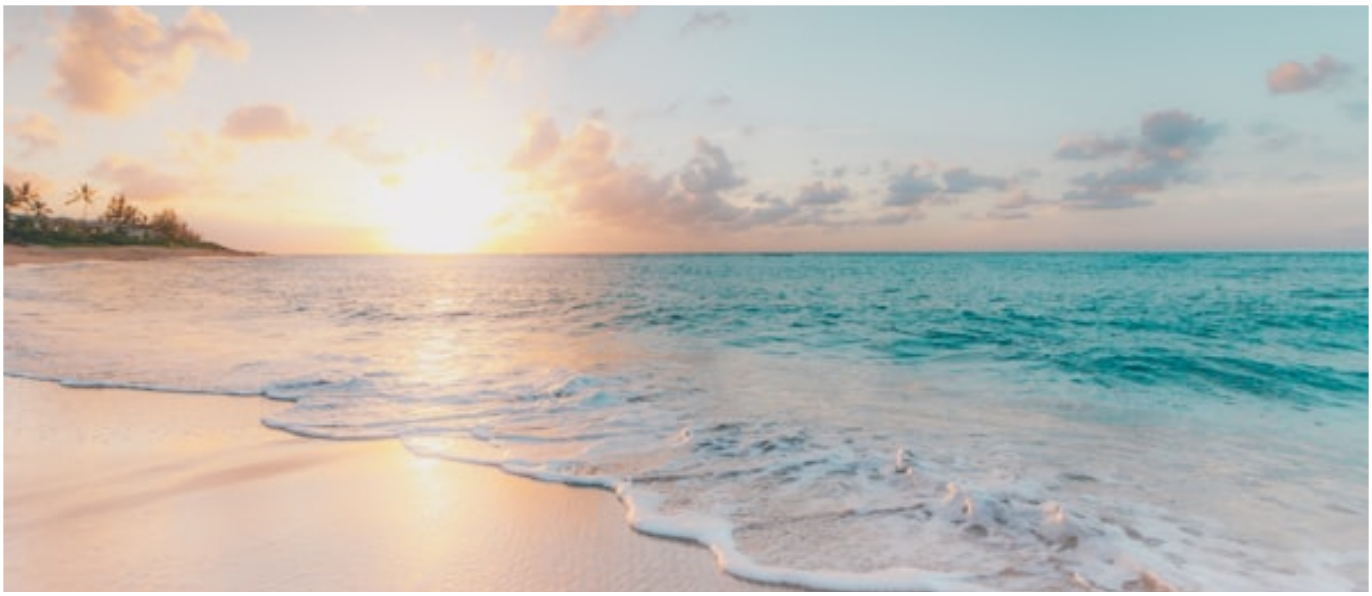
Today, we soak for different reasons and the same ones. The minerals — sulfur, lithium, magnesium, silica — are real medicine, clinically shown to reduce inflammation, ease chronic pain, and improve skin conditions. But the deeper medicine is simpler: hot water forces you to stop. You cannot scroll in a hot spring. You cannot hustle. You can only be.

America holds an extraordinary wealth of thermal water. From the volcanic coast of Alaska to the desert basins of New Mexico, from primitive pools you hike hours to reach to century-old resort towns built on geothermal abundance — this country has nearly 1,700 known thermal springs. We've mapped 289 of the best.

This guide is an invitation to slow down. To drive the long road. To find the unmarked trailhead. To lower yourself into water that has been warm since before humans had a name for warmth, and to remember what it feels like to simply exist.

The 10 Best Hot Springs in America

Our editors' picks for the ultimate soak



Dunton Hot Springs

Dolores, Colorado

The steam rises in lazy spirals against a canvas of Colorado wilderness. Dunton Hot Springs sits in a restored ghost town at 9,000 feet, where hand-hewn log cabins line a single dirt road and the hot spring emerges into a bathhouse that time forgot. This is where the modern world dissolves — no cell service, no screens, just the sound of the West Fork of the Dolores River and the warmth of 106-degree mineral water against your skin.

TEMPERATURE	TYPE	PRICE
106°F	**resort**	**$800-$2000/night**
DIFFICULTY	RATING	ACCESS
Easy	**4.9**	**Wheelchair accessible**

Grand Prismatic Spring

Yellowstone National Park, Wyoming

Perched on the cliffs of Big Sur, Tassajara feels less like a destination and more like a secret whispered between friends. As the oldest Zen monastery in America, it opens to the public only in summer, when the creek runs cold and the sulfur pools run hot. The silence here isn't empty — it hums with intention.

TEMPERATURE	TYPE	PRICE
160°F	**natural**	**$35 park entry**
DIFFICULTY	RATING	ACCESS
Easy	**4.9**	**Short walk**

Goldbug Hot Springs

Salmon, Idaho

Esalen is myth made real. The clothing-optional pools hang over the Pacific Ocean, perched on cliffs where sea otters play in the kelp below. At night, the Milky Way stretches overhead while 120-degree water cascades through stone tubs. It's simultaneously ancient and radical — a place that has shaped American consciousness since the 1960s.

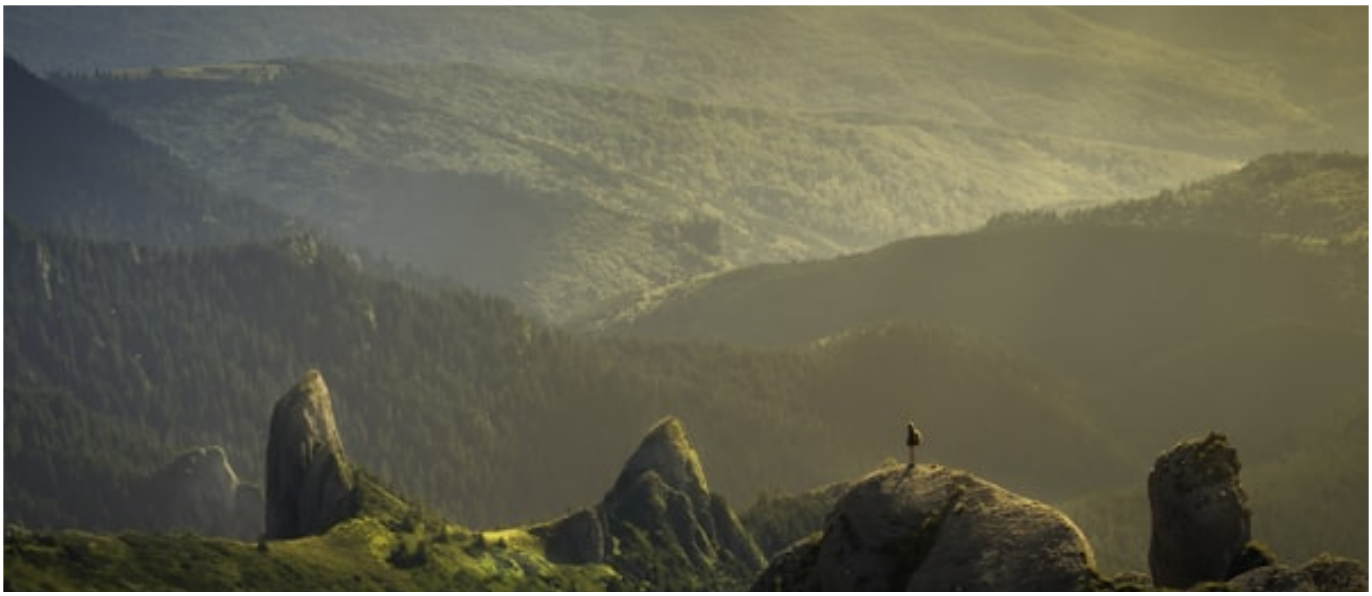
TEMPERATURE	TYPE	PRICE
110°F	**primitive**	**Free**
DIFFICULTY	RATING	ACCESS
Challenging	**4.8**	**Moderate hike**

Conundrum Hot Springs

Aspen, Colorado

Solage brings Napa Valley elegance to the art of soaking. The geothermal pools are impeccably designed — clean lines, mature palms, and that particular quality of California light that makes everything look like a film still. After your soak, there's world-class wine waiting.

TEMPERATURE	TYPE	PRICE
100°F	**primitive**	**Free**
DIFFICULTY	RATING	ACCESS
Challenging	**4.8**	**Backcountry**



Baranof Warm Springs

Baranof Island, Alaska

The institute that launched a thousand ideas. Esalen's workshops have hosted everyone from Aldous Huxley to Joan Baez, and the hot springs remain the spiritual center. Clothing optional, perched above the crashing Pacific, the pools are terraced into the cliff face like ancient Roman baths reimagined by California dreamers.

TEMPERATURE	TYPE	PRICE
118°F	**natural**	**Free**
DIFFICULTY	RATING	ACCESS
Challenging	**4.8**	**Backcountry**

Tassajara Hot Springs

Carmel Valley, California

Ten Thousand Waves is Japan transplanted to the high desert of New Mexico. Cedar soaking tubs dot a piñon-covered hillside above Santa Fe, each one a private universe. The architecture is flawless — Japanese post-and-beam meets adobe, and the effect is pure serenity.

TEMPERATURE	TYPE	PRICE
140°F	**resort**	**$150+**
DIFFICULTY	RATING	ACCESS
Moderate	**4.8**	**Moderate hike**

Goldmyer Hot Springs

North Bend, Washington

Castle Hot Springs is where the Sonoran Desert reveals its secret: beneath the saguaros and the scorching sun, the earth is warm and generous. This restored 1896 resort channels that generosity into three spring-fed pools, each a different temperature, each with a view of the Bradshaw Mountains.

TEMPERATURE	TYPE	PRICE
127°F	**primitive**	**$20 donation**
DIFFICULTY	RATING	ACCESS
Moderate	**4.8**	**Moderate hike**

Esalen Hot Springs

Big Sur, California

Burgdorf is Idaho at its most honest. A collection of hand-built cabins around a 112-degree pool, accessible only by a dirt road that gets questionable in winter. No electricity, no Wi-Fi, no pretense. Just stars, steam, and the kind of quiet that city people have forgotten exists.

TEMPERATURE	TYPE	PRICE
119°F	**resort**	**$40-$235**
DIFFICULTY	RATING	ACCESS
Easy	**4.8**	**Short walk**

Ferris Fork Hot Springs

Yellowstone National Park, Wyoming

Antero sits at 9,000 feet in the Arkansas River Valley, where the Collegiate Peaks form a wall of granite along the western horizon. Each cabin has its own private hot spring tub, fed by the same geothermal source that has drawn visitors for centuries. On clear nights, the stars feel close enough to touch.

TEMPERATURE **110°F**	TYPE **primitive**	PRICE **$35 park entry**
DIFFICULTY **Challenging**	RATING **4.8**	ACCESS **Backcountry**

Kanuti Hot Springs

Bettles, Alaska

Riverbend lives up to its name — hot spring pools terraced along the banks of the Rio Grande in Truth or Consequences, a town that renamed itself after a game show and never looked back. The water is 107 degrees, the vibe is wonderfully weird, and the sunsets over the desert mesas are worth the drive alone.

TEMPERATURE	TYPE	PRICE
135°F	**primitive**	**Free**
DIFFICULTY	RATING	ACCESS
Challenging	**4.8**	**Backcountry**

Bettles, Alaska · 135°F · Free · 4.8

A challenging-access primitive spring at 135°F. Completely free to visit. Backcountry access.

Tolovana Hot Springs
Fairbanks, Alaska · 140°F · Free · 4.7

A challenging-access primitive spring at 140°F. Completely free to visit. Backcountry access.

Luxury Resort Experiences

Dunton Hot Springs

Dolores, Colorado · 106°F · $800-$2000/night · 4.9

A easy-access resort spring at 106°F. Admission $800-$2000/night. Wheelchair accessible access.

Tassajara Hot Springs

Carmel Valley, California · 140°F · $150+ · 4.8

A moderate-access resort spring at 140°F. Admission $150+. Moderate hike access.

Esalen Hot Springs

Big Sur, California · 119°F · $40-$235 · 4.8

A easy-access resort spring at 119°F. Admission $40-$235. Short walk access.

Solage Calistoga

Calistoga, California · 102°F · $500-$1200/night · 4.8

A easy-access resort spring at 102°F. Admission $500-$1200/night. Wheelchair accessible access.

Esalen Institute

Big Sur, California · 119°F · $35-$235 · 4.7

A easy-access resort spring at 119°F. Admission $35-$235. Short walk access.

Best Winter Hot Springs

Bumpass Hell
Mineral, California · 239°F · $30 park entry · 4.7

A moderate-access natural spring at 239°F. Admission $30 park entry. Moderate hike access.

Fly Geyser
Gerlach, Nevada · 200°F · $40-$50 · 4.7

A easy-access natural spring at 200°F. Admission $40-$50. Short walk access.

Sespe Hot Springs
Ojai, California · 195°F · Free · 4.5

A challenging-access natural spring at 195°F. Completely free to visit. Backcountry access.

Mickey Hot Springs
Fields, Oregon · 186°F · Free · 4.3

A easy-access natural spring at 186°F. Completely free to visit. Short walk access.

Hot Creek Geological Site
Mammoth Lakes, California · 180°F · Free · 4.1

A easy-access natural spring at 180°F. Completely free to visit. Short walk access.

Road Trip Itineraries

Three epic routes through hot springs country

Pacific Coast Hot Springs Trail

7 days · California, Oregon & Washington

Day 1: Tassajara Hot Springs, Carmel Valley
140°F resort spring. Admission $150+. Moderate access. Drive to your next stop and settle in for the evening.

Day 2: Goldmyer Hot Springs, North Bend
127°F primitive spring. Admission $20 donation. Moderate access. Drive to your next stop and settle in for the evening.

Day 3: Esalen Hot Springs, Big Sur
119°F resort spring. Admission $40-$235. Easy access. Drive to your next stop and settle in for the evening.

Day 4: Solage Calistoga, Calistoga
102°F resort spring. Admission $500-$1200/night. Easy access. Drive to your next stop and settle in for the evening.

Day 5: Esalen Institute, Big Sur

119°F resort spring. Admission $35-$235. Easy access. Take your time — the journey is the destination.

Day 6: Saline Valley Hot Springs, Death Valley

107°F primitive spring. Free entry. Challenging access. Take your time — the journey is the destination.

Day 7: Bumpass Hell, Mineral

239°F natural spring. Admission $30 park entry. Moderate access. Take your time — the journey is the destination.

PRO TIP

Book accommodations in advance during peak season (June-August). Many hot springs towns have limited lodging. Consider camping for the full experience — several springs have nearby campgrounds.

Rocky Mountain Soak Circuit

7 days · Colorado, Montana, Idaho & Wyoming

Day 1: Dunton Hot Springs, Dolores

106°F resort spring. Admission $800-$2000/night. Easy access. Drive to your next stop and settle in for the evening.

Day 2: Grand Prismatic Spring, Yellowstone National Park

160°F natural spring. Admission $35 park entry. Easy access. Drive to your next stop and settle in for the evening.

Day 3: Goldbug Hot Springs, Salmon

110°F primitive spring. Free entry. Challenging access. Drive to your next stop and settle in for the evening.

Day 4: Conundrum Hot Springs, Aspen

100°F primitive spring. Free entry. Challenging access. Drive to your next stop and settle in for the evening.

Day 5: Ferris Fork Hot Springs, Yellowstone National Park

110°F primitive spring. Admission $35 park entry. Challenging access. Take your time — the journey is the destination.

Day 6: Stanley Hot Springs, Stanley

100°F primitive spring. Free entry. Challenging access. Take your time — the journey is the destination.

Day 7: Burgdorf Hot Springs, McCall

112°F developed spring. Admission $10-$15. Moderate access. Take your time — the journey is the destination.

PRO TIP

Book accommodations in advance during peak season (June-August). Many hot springs towns have limited lodging. Consider camping for the full experience — several springs have nearby campgrounds.

Southwest Desert Springs

7 days · Arizona, New Mexico, Nevada & Utah

Day 1: Ten Thousand Waves, Santa Fe
104°F resort spring. Admission $28-$52. Easy access. Drive to your next stop and settle in for the evening.

Day 2: Castle Hot Springs, Morristown
120°F resort spring. Admission $800+/night. Easy access. Drive to your next stop and settle in for the evening.

Day 3: Gold Strike Hot Springs, Boulder City
100°F primitive spring. Free entry. Challenging access. Drive to your next stop and settle in for the evening.

Day 4: Fly Geyser, Gerlach
200°F natural spring. Admission $40-$50. Easy access. Drive to your next stop and settle in for the evening.

Day 5: Riverbend Hot Springs, Truth or Consequences

112°F resort spring. Admission $15-$30. Easy access. Take your time — the journey is the destination.

Day 6: San Antonio Hot Springs, Jemez Springs

108°F primitive spring. Free entry. Moderate access. Take your time — the journey is the destination.

Day 7: Fifth Water Hot Springs (Diamond Fork), Spanish Fork

110°F natural spring. Free entry. Moderate access. Take your time — the journey is the destination.

PRO TIP

Book accommodations in advance during peak season (June-August). Many hot springs towns have limited lodging. Consider camping for the full experience — several springs have nearby campgrounds.

The Soaker's Handbook

Everything you need to know before you go

Hot Springs Etiquette

1. Shower before entering any pool. This is non-negotiable.
2. Keep your voice low. People come here for peace.
3. If it's clothing optional, respect both clothed and unclothed visitors.
4. Never bring glass containers near hot springs.
5. Pack out everything you pack in. Leave no trace.
6. Don't use soap, shampoo, or any chemicals in natural springs.
7. Respect posted time limits during busy periods.
8. Keep pets away from hot springs unless explicitly allowed.
9. Don't move rocks or alter natural pools.
10. If someone is meditating or resting quietly, give them space.

Temperature Guide

- 95-100°F: Warm and gentle. Perfect for long soaks and families.
- 100-104°F: The sweet spot. Most developed springs target this range.
- 104-108°F: Hot. Limit to 15-20 minutes. Stay hydrated.
- 108-112°F: Very hot. Brief soaks only. Cool off between sessions.
- 112°F+: Dangerously hot. Most springs at this temp are for looking, not soaking.

Packing Checklist

¡Swimsuit (even for clothing-optional spots — always have one)

¡Quick-dry towel

¡Water bottle (hydration is critical in hot water)

¡Sandals or water shoes

¡Headlamp or flashlight (many springs are best at night)

¡Dry bag for electronics

¡Sunscreen (SPF 30+ for daytime soaks)

¡Snacks (salty ones — you lose electrolytes)

¡First aid kit

¡Cash (many remote springs are cash-only)

¡Trash bag (pack it out)

¡Warm layers for the walk back (you cool fast)

Mineral Guide

• Sulfur: Antimicrobial, treats skin conditions like eczema and psoriasis.

• Lithium: Natural mood stabilizer. Common in desert springs.

• Magnesium: Muscle relaxation, stress reduction, better sleep.

• Silica: Skin softening, collagen support, anti-aging properties.

• Calcium: Bone health, joint support, circulation.

• Sodium bicarbonate: Softens skin, neutralizes acid, deeply cleansing.

Safety Tips

1. Never soak alone in remote or primitive springs.
2. Check water temperature before entering — use your hand, not your foot.
3. Stay hydrated. Drink water before, during, and after soaking.
4. Limit soaks to 15-20 minutes in water above 104°F.
5. Avoid hot springs if you're pregnant, have heart conditions, or are intoxicated.
6. Be aware of amoeba risk in warm, stagnant water — never submerge your head.
7. Check current conditions before visiting wilderness springs — roads and trails change.
8. Tell someone where you're going if visiting a remote spring.
9. Watch for slippery surfaces — mineral deposits make rocks treacherous.
10. Respect closures. If a spring is closed, there's usually a good reason.

"The best hot spring is the one you're in right now."
